Summary

Full-Stack Software Engineer (Frontend & Backend)

Full-stack software engineer with hands-on experience building and maintaining web applications end-to-end since 2018, spanning front-end interfaces (HTML, CSS, JavaScript) and backend development (PHP, Node.js, MySQL, MongoDB). Track record of shipping and supporting production web systems as a developer, team lead, and co-founder.

Education

The Egyptian E-learning University

B.Sc. Computer Science and Information Technology

February 2021 – September 2025

Fayoum, Egypt

STEM High School for Boys - 6th of October

STEM Curriculum

October 2017 – August 2020

Giza, Egypt

Work Experience

CodeX Technologies

Co-Founder and CTO

November 2025 – Present

Giza, Egypt

- Co-founded CodeX Technologies, leading full-stack web development and technical direction as CTO.
- Design and build front-end and backend components of the company's web-based technology solutions.

OBM Education

IT and Web Developer

April 2023 – Present

Egypt

- Develop and maintain full-stack web applications, covering both front-end interfaces and backend logic.
- Build and support backend systems and internal tools powering the organization's web platforms.

Mirus

Web Developer

December 2019 – September 2021

Cairo, Egypt

- Developed front-end interfaces for company web properties.
- Supported backend infrastructure underpinning the company's websites.
- Maintained and continuously improved existing websites end-to-end.

STEM High School for Boys - 6th of October

Developers Supervisor

August 2020 – July 2021

6th of October, Al Jizah, Egypt

- Supervised development of the school's new website, front-end through backend.
- Remotely managed backend systems supporting the school's web platform.

Plebits

Web Developer

August 2019 – February 2021

Cairo, Egypt

- Performed front-end development for client-facing websites.
- Supported backend infrastructure for client web projects.
- Maintained and improved websites to meet ongoing client needs.

Projects

Onesyo | *Healthcare Platform* — *Node.js/Express, Sequelize, Next.js, React Native (Expo)*

- Architected a multi-service healthcare platform: Express/Sequelize backend API, Next.js doctor/admin dashboard, Expo-based patient mobile app, and Next.js marketing site.
- Implemented real-time chat and presence with Socket.IO, doctor KYC approval workflows, and role-based dashboards for admins and doctors.

Zparez | *Mercedes Spare Parts Marketplace* — *Next.js, TypeScript, TailwindCSS, Node.js/Express, Sequelize*

- Built a full-stack e-commerce marketplace: TypeScript/Next.js storefront and admin dashboard backed by an Express/Sequelize/MariaDB API.

- Implemented multi-seller product listings, vehicle-based recommendations, and order/inventory management APIs.

Darak | *SaaS Admin Dashboard — Next.js, TailwindCSS, Shadcn/UI, Node.js/Express, Sequelize*

- Developed an admin dashboard with JWT authentication, role-based user management, and real-time updates via TanStack Query.
- Built the Express/Sequelize backend API, deployed with PM2, powering user management and platform administration.

Certifications

Embedded Systems Diploma <i>The Egyptian E-Learning University (EELU)</i>	September 2022
Building Web Applications using PHP & MySQL <i>Information Technology Institute (ITI)</i>	January 2022
Developing Mobile Applications for Android using Java <i>Information Technology Institute (ITI)</i>	January 2022
Java Development SE <i>Information Technology Institute (ITI)</i>	January 2022
Computer Network Fundamentals <i>Information Technology Institute (ITI)</i>	January 2020
Learn HTML & CSS <i>Information Technology Institute (ITI)</i>	January 2020 <i>Credential ID: izXiKLpLcH</i>
Egypt Mobile Application Competition <i>Misr University for Science and Technology</i>	April 2019
International Computer Drivers License - Level One (ICDL) <i>ICDL Certification</i>	July 2014 <i>Credential ID: EGY1244350</i>
Intel Learn Program (Technology and Community) <i>Intel</i>	January 2013 <i>Credential ID: 41079-30208072300097</i>
Intel Learn Program (Technology At Work) <i>Intel</i>	January 2012

Skills

Front-End Development

- HTML, CSS, JavaScript
- Responsive, Client-Side Web Development
- Angular, Flutter

Backend Development

- PHP, Node.js, Express.js
- Database Systems (MySQL, MongoDB)
- Full-Stack Web Application Architecture (MEAN Stack)

Programming Languages

- PHP, JavaScript, Python, Java, Dart

Supporting Skills

- System Administration & Infrastructure Support
- Network Fundamentals
- Technical Team Supervision & Co-Founder/CTO Leadership Experience
